- ▶ 630 Hz low-pass filter cuts harmonics
- ▶ Red display warns of over-voltage
- ▶ Internal memory for 400 data points
- ▶ Clamp sensor or direct current input models
- ▶ DT4900 Optional PC Management Software

- ▶ Max 1700 V voltage-dedicated model
- ▶ Fuse-protected model harsh Work environments
- ▶ Super noise suppression with 100/500 Hz low-pass filter gets faster readings
- ▶ Red LED over-voltage warning also aids in continuity checks
- ▶ Clamp sensor or direct current input
- ▶ HVAC, instrumentation and temperature testing model
- ▶ DT4900 Optional PC Management Software

- ▶ Effortless operation with test lead storage clips behind the DMM
- ▶ Runs on one AAA battery, for simple replacement
- ▶ No current terminals for ultimate safety

DT4900

Supporting Clamp On Probes

9010-50

- ▶ 500A AC
- ▶ 6 ranges
- ▶ ± 2% accuracy

9018-50

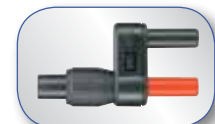

- ▶ 500A AC
- ▶ 6 ranges
- ▶ ± 1.5% accuracy

9132-50

- ▶ 1000A AC
- ▶ 6 ranges
- ▶ ± 3% accuracy

Convert from female BNC to male banana-plug to connect

9704

All of the products appearing in this catalog are CE marked unless otherwise indicated. HIOKI products labeled with the CE marking are designed for fulfillment of these over-voltage category requirements. In order to ensure safe use of this instrument, please use a device showing the CAT marking that is appropriate for the place of use.

Note: Company names and Product names appearing in this catalog are trademarks or registered trademarks of various companies.
